Student Assessment
“For the evaluation to support learning, it must be meaningful to the learner.”

(From the Ground Up, Novak in Mills & Donnelly, 2001)
How does Webster define assessment?

**assess**

One entry found for *assess*. Main Entry: **assess**

Pronunciation: &'-ses, a-

Function: *transitive verb*

Etymology: Middle English, probably from Medieval Latin *assessus*, past participle of *assidEre*, from Latin, *to sit beside*, assist in the office of a judge -- more at ASSIZE

1 : to determine the rate or amount of (as a tax)
2 a : to impose (as a tax) according to an established rate b : to subject to a tax, charge, or levy
3 : to make an official valuation of (property) for the purposes of taxation
4 : to determine the importance, size, or value of *<assess a problem>*
5 : to charge (a player or team) with a foul or penalty
The evaluation of personality variables, achievement, skill, or ability.

"Assessment is defined as the systematic basis for making inferences about the learning and development of students. More specifically, assessment is the process of defining, selecting, designing, collecting, analyzing, interpreting, and using information to increase students' learning and development" (T. Dary Erwin, *Assessing Student Learning and Development*, Jossey-Bass, 1991, see pp.14-19).
"Assessment is a means for focusing our collective attention, examining our assumptions, and creating a shared culture dedicated to continuously improving the quality of higher learning. Assessment requires making expectations and standards for quality explicit and public; systematically gathering evidence on how well performance matches those expectations and standards; analyzing and interpreting the evidence; and using the resulting information to document, explain, and improve performance."

Types of Assessment

- **Screening** – brief assessment that will be a strong indicator of future academic behavior. (Dominie)

- **Diagnostic** - Assessment conducted at any time during the school year when more in-depth analysis of a student's strengths and weaknesses is needed to guide instruction. (Special Services analysis)

- **Progress Monitoring** - Assessment conducted a minimum of three times a year or on a routine basis (i.e., weekly, monthly, or quarterly) using comparable multiple assessment forms to
  - (a) estimate rates of reading improvement,
  - (b) identify children who are not demonstrating adequate progress and therefore require additional or different forms of instruction, and/or
  - (c) compare the efficacy of different forms of instruction for struggling readers and thereby design more effective, individualized instructional programs for those at-risk learners. (Dominie, SCRA, Rubrics, teacher/student made tests)

- **Outcome** - Assessment for the purpose of classifying students in terms of whether or not they achieved grade level performance or improved. (PACT)
Why assess?

- Provide Diagnosis
- Set standards
- Evaluate progress
- Communicate results
- Motivate performance
The founding vision regarding assessment...

- Parents didn’t want their children over assessed.
- Careful consideration was given to State Department of Education assessment requirements.
- There was a general belief and agreement that the main purpose of any assessment should be to inform instruction in a way that allows teachers to make decisions that lead toward continued growth and learning not only for students but for teachers.
What does our charter say:

Student Achievement and Progress Evaluation.

- The Palmetto Achievement Challenge Test (PACT) will be administered at state mandated grade levels as an outcome measure.

- Dominie Reading and Writing Assessment Portfolio will be used as a progress monitoring tool in all grade levels to define progress and plan individual language arts curricula.

- Informal assessments such as interim teacher tests, student observations, student portfolios, and individual conferencing will be utilized.

What does our charter say: Performance Goals Timeline

- Students will be expected to perform at or above grade level or make one year’s progress for each year enrolled.

- The expected yearly progress will meet or exceed adequate yearly progress as established in No Child Left Behind Act.

- Assessment results will address product and process.

- Profiles of student achievement will be developed that show each child’s growth.

- Student achievement will be discussed and reported through conferences and written narrative reports that will communicate the child’s progress toward the competencies in each given content area.
So, what are some meaningful forms of assessment in use at CSI....

- Kidwatching
- Rubrics
- Teacher/student made tests
- Portfolios
- Standardized tests
What is Kidwatching?

“Kidwatching includes direct, intentional, and systematic observations by teachers”

(O’Keefe, 1997)
Why do we do it?

*Kidwatching* is a term coined by Yetta Goodman in the late 1970's to describe in-depth, long-term observations of the children we teach. When we *watch kids* we bring our understanding of how children think and learn to our careful observations of how they interact with people, things, events, and experiences in the classroom, lunchroom, playground – anywhere we are able to be together.
“Attending to the details of one child at a time can develop a richer understanding of that person, of course, and it can simultaneously strengthen a deeper and more powerful understanding of all children, for it sensitizes teachers to detail, to their own ability to observe and understand, and to similarities and differences between children.”

Bill Ayers (1993)

What are rubrics?

In general a rubric is a scoring guide used in subjective assessments. A rubric implies that a rule defining the criteria of an assessment system is followed in evaluation. A rubric can be an explicit description of performance characteristics corresponding to a point on a rating scale. A scoring rubric makes explicit expected qualities of performance on a rating scale or the definition of a single scoring point on a scale.

**0-8 Pts** You can do better!  **9-10 Pts** Good job!  **11-12 Pts** Great job!

Use this assessment as an opportunity to reflect on what you did well and what you can do better in the future!
What are teacher/student made assessments?

- Generally this refers to an assessment that is created by the teacher or in collaboration with the students based on a focused study or a particular topic pertinent to the students being taught. In other words the teacher thinks carefully about what he/she has learned with the children and then carefully crafts and exam that will allow children to showcase their new learning.
Example of teacher/student made assessment in Upper Elementary

What I know about the solar system

What is the name of the planet that you are an expert on? ______________________

Tell five facts about your planet
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

List the planets in order from the sun
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

What is the equator? ______________________
__________________________________________________________________________

Draw a picture if that helps you explain it better:

Expert _________________________ Date ____________________
Example of teacher/student made assessment in Upper Elementary

What is the equinox? ___________________________________________

____________________________________________________________________________________________________________________________________________________________________

Draw a picture if that helps you explain it better:

Match the planet with the best fact:

Mercury _____ A. rings are not solid but made of ice
Venus _____ B. only planet that people can live on
Earth. _____ C. now known as a dwarf planet
Mars ____ D. is the closest planet to the sun
Jupiter _____ E. has 21 moons
Saturn _____ F. this planet has a black spot on it
Uranus _____ G. this planet is the same size as Earth
Neptune _____ H. this planet is often called the red planet
Pluto _____ I. this is the largest planet

Draw a picture of the phases of the moon and label them:

What was one thing you learned at the Challenger Learning Center?

Is there anything else that you want to say about your understanding of space?
What are Portfolios?

one type of alternative assessment; portfolios are a representative collection of a student's work throughout an extended period of time; the aim is to document the student's progress in language learning via the completion of such tasks as reports, projects, artwork, and essays.

[taesig.8m.com/createxiii.html](http://taesig.8m.com/createxiii.html)
What is the SCRA?

- A Performance Assessment Spanning Kindergarten and First Grade
- Adapted from the Work Sampling System
- Three Broad Domains:
  - Personal and Social Development
  - English/Language Arts
  - Mathematics
What are the purposes of the SCRA?

- The SCRA serves a unique dual purpose:
- Inform instructional decision-making
- A standards-based measure of the school readiness of SC’s rising first and second graders

To learn more about SCRA visit:
http://ed.sc.gov/agency/offices/ece/documents/SCRAoverview2-Nov2005.ppt#268,12,SCRA – Content Hierarchy
What are standardized tests?

Commercially prepared tests that assess performance in different domains. A standardized test often allows an adolescent's performance to be compared to that of other adolescents of the same age.

highered.mcgraw-hill.com/sites/007249199x/student_view0/chapter2/key_terms.html
PACT is the only standardized test we administer at CSI

- administered to 3-5 grade students only

- ELA and Math are assessed in all grades, science is assessed in 3rd grade and 5th grade and social studies is assessed in 4th grade.

- The PACT English language arts test and the mathematics test includes both multiple-choice and constructed-response items. Each ELA test also includes one extended writing item. The PACT Science and Social Studies tests will include only multiple-choice items for the 2006-07 test administration.
Dominie Reading and Writing Profile

“While there are many purposes for evaluation, this system is designed to help teachers observe and document children’s growth in reading and writing to improve instructional decisions. “
Dominie Reading and Writing Profile
Primary Class Assessments

Six assessments are given in the Primary classes

- Sentence writing and spelling
- Spelling Inventory
- Inventory of letter knowledge
- Core reading words
- Show Me Book
- Text Reading
Primary Class Fall 2006 Results

Sentence Writing –

- kindergarten aged students scores range from 7-50 correct out of a possible 50 phonemes
- first grade aged students scores range from 12-50 correct out of a possible 50 phonemes

Spelling Inventory -

- kindergarten aged students scores range from 0-17 correct out of a possible 18 words
- first grade aged students scores range from 2-16 correct out of a possible 18 words
Primary Class Fall 2006 Results

Inventory of Letter Knowledge

- kindergarten aged students scores range from 11-52 correct out of a possible 52 letters (upper and lower case)
- first grade aged students scores range from 44-52 correct out of a possible 52 letters (upper and lower case)

Core reading words

- kindergarten aged students scores range from 1-15 correct out of a possible 15 words read
- first grade aged students scores range from 1-27 correct out of a possible 27 words read
Primary Class Fall 2006 Results

Text Reading

- Overall classroom reading level ranged from a level 1 (beginning of kindergarten) to a level 10 (middle of third grade)
Dominie Reading and Writing Profile
Early Elementary Class Assessments

Four assessments are given in the Early Elementary classes

- Sentence writing and spelling
- Spelling Inventory
- Core reading words
- Text Reading
Early Elementary Class
Fall 2006 Results

Sentence Writing/spelling –

- Second grade aged students scores range from 56-70 correct out of a possible 70 phonemes in writing and 5-11 out of 20 possible correct words
- Third grade aged students scores range from 47-70 correct out of a possible 70 phonemes in writing and 9-19 out of 20 possible correct words
- One child did not take the sentence writing and spelling assessment

Spelling Inventory -

- Second grade aged students scores range from 0-10 correct out of a possible 45 words
- Third grade aged students scores range from 0-41 correct out of a possible 45 words
Core reading words

- Second grade aged students scores range from 6-24 correct out of a possible 25 words read
- Third grade aged students scores range from 3-25 correct out of a possible 25 words read
- One student is working at a first grade level

Text Reading

- Overall classroom reading level ranged from a level 1 (beginning of kindergarten) to a level 10 (middle of third grade)
Upper Elementary Class
Fall 2006 Results

Sentence Writing/spelling –
- Fourth grade aged students scores range from 56-70 correct out of a possible 70 phonemes in writing and 5-11 out of 20 possible correct words
- Third grade aged students scores range from 47-70 correct out of a possible 70 phonemes in writing and 9-19 out of 20 possible correct words
- One child did not take the sentence writing and spelling assessment

Spelling Inventory – (fourth grade test administered)
- Fourth grade aged students scores range from 0-31 correct out of a possible 45 words
- Fifth grade aged students scores range from 1-41 correct out of a possible 45 words
Upper Elementary Class
Fall 2006 Results

Core reading words (3rd grade word list)

- Fourth grade aged students scores range from 13-25 correct out of a possible 25 words read
- Fifth grade aged students scores range from 18-25 correct out of a possible 25 words read
- One student is working at a first grade reading level

Text Reading

- Overall classroom reading level ranged from a level 5 (beginning of first grade) to a level 18 (end of 8th grade)
What does all this mean for us today

- Dominie Reading and Writing Profile is administered and reported to the Board in the Fall, Winter and Spring of each school year.
- We will do the same with our mathematics assessment but for the 2006-2007 school year we will only have a winter and spring administration and report.
- Other subject areas (science and social studies) will be reported on an individual classroom basis in narrative and standards based reports to parents.
- We will experience success this year just by the nature of the educational setting that we are providing students.
Some final thoughts...

- There should be no surprises when it comes to student evaluation.
- Students should always be aware of evaluation criteria and procedures.
- They should have a role in the evaluation process.
- They should receive regular feedback as to “how they are doing.”
“All assessment is a perpetual work in progress.”

Linda Suske
